# Recruitment & Admissions

Increase engagement, fast track admissions

Engage with existing and prospective students through self service interaction with social media and mobile platforms. Automate the generation and delivery of offers for faster, more efficient admission processing.

Maximise your revenue through an effective admissions system that meets the shifting expectations of students. Engage with students, academics, agents and other third parties with intuitive self service capabilities.

## Overview

TechnologyOne Recruitment & Admissions is a comprehensive solution for prospective students. Enabling you to automate workflow for enquires and application assessment, with multi-channel support for domestic, international, undergraduate and post-graduate students.

### Effective student recruitment

With inbuilt CRM functionality, institutions are able to deliver enhanced visibility and consistent engagement with all prospective students. Real-time feedback on recruitment marketing campaign activity and effectiveness are delivered through integrated business intelligence tools.

### Multi-channel support

Support domestic and international undergraduate and post-graduate students, via a range of channels. Facilitate interaction with overseas recruitment agents, direct applications, TAC, partnerships and walk-ups.

### Timely enquiry management

Deliver timely responses to prospective student with intuitive self-service enquiry forms, that allow prospects to track and monitor institution responses. Enquiries are automatically routed between faculties and added to personal workflows. Pre-populated templates with enquiry information ensure efficient responses.

### Streamlined offer management

Deliver quick responses to prospective students through parallel processing and review of applications, and automatic generation and distribution of offers. Automate business process through powerful workflow and self-service capabilities.

### Seamless integration

Accepted offers are automatically assembled for seamless transfer into the student management system, minimising administrative work and duplicate data entry.

### Recruitment Challenges

TechnologyOne Recruitment & Admissions allows you to meet recruitment challenges without needing to replace your incumbent student management system.

Our enterprise software enables access from any device, any where, any time; and either on premise or via the TechnologyOne Cloud.

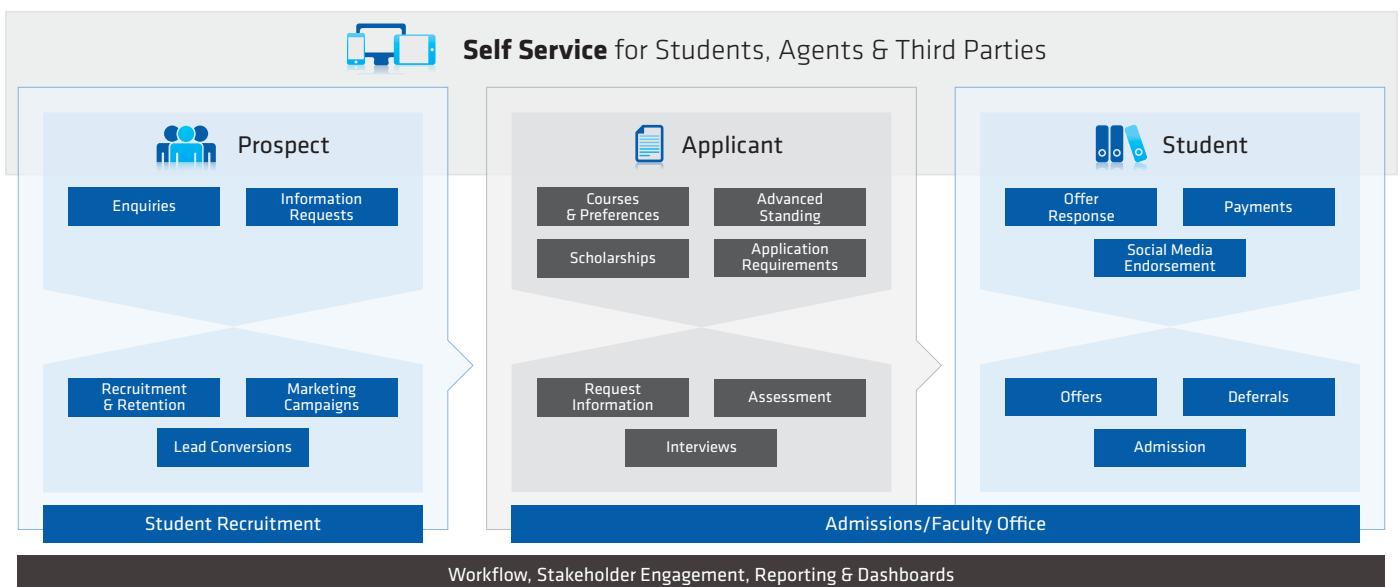

# Engage with prospective students

## Recruitment & Admissions enables you to...

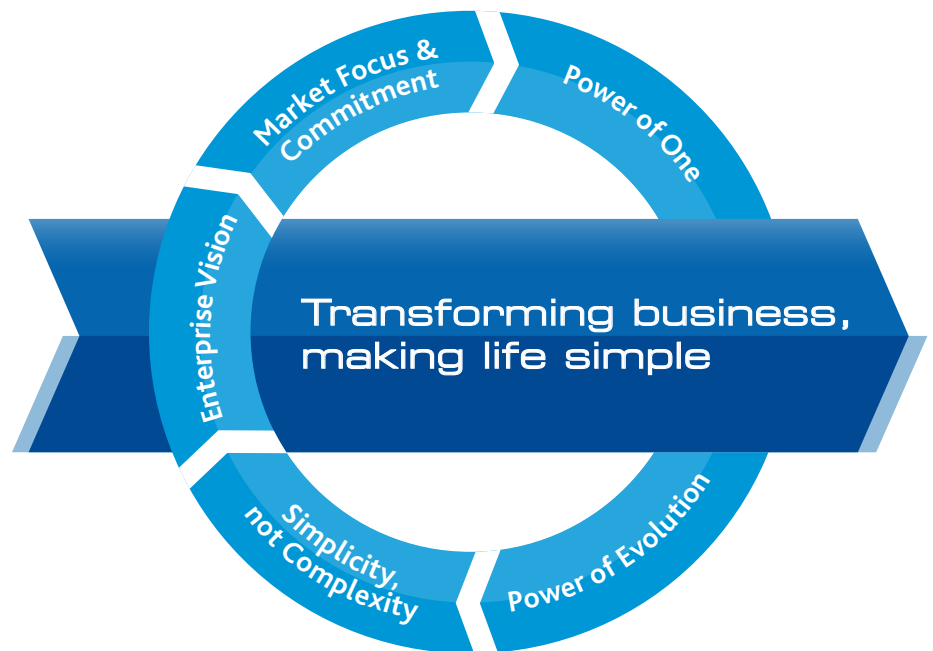

- ✔ Deliver multi-channel support for domestic, international, undergraduate and post-graduate students

# Our approach

## Our enterprise vision

### The power of a single, integrated enterprise solution

Experience the power of a single, integrated enterprise solution built on a single modern platform with a consistent look and feel.

## Market focus and commitment

### Preconfigured enterprise software solutions reduce time, cost and risk

A deep understanding and engagement with our seven key markets means we can deliver to our customers integrated, preconfigured solutions that provide proven practice, streamline implementations and reduce time, cost and risk.

## The power of one

### One vision. One vendor. One experience.

When you invest in a TechnologyOne solution you benefit from a direct relationship with us every step of the way. We do not use implementation partners or value-added resellers. We take complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer to guarantee long-term success.

## The power of evolution

### An enterprise solution that adapts and evolves

Substantial investment into R&D each year means we provide our customers a strong, continuing competitive advantage through an enterprise solution that adapts and evolves by embracing new technologies, concepts and innovation.

## Simplicity, not complexity

### Enterprise software, incredibly simple

Software that embraces consumer concepts and expectations to deliver solutions that are incredibly easy to use and remove complexity.
